

KONA ARAVIND RANGA REDDY

Bangalore, Karnataka, India | +91 9160397434 | aravindkona18090@gmail.com

[LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI/ML undergraduate with hands-on project experience across full-stack web development (Python, Java, PHP, JavaScript) and a strong foundation in SQL and version control. Skilled at translating user needs into functional, well-structured applications, with projects spanning ride-sharing logistics and map-based civic issue reporting. Seeking an internship or entry-level role to apply programming and problem-solving skills to real-world software or AI/ML projects.

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning

Expected May 2028

GITAM (Deemed to be University), Bangalore — Currently in 3rd year

CGPA: 9.27 / 10 (Current)

Diploma in Computer Engineering

May 2025

Sree Vidyanikethan Engineering College, Tirupati

Percentage: 97.29%

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, SQL, PHP

Core CS Concepts: Data Structures & Algorithms (DSA), DBMS

Web Development: HTML, CSS, JavaScript, PHP, Bootstrap

Tools & Version Control: Git, GitHub, Visual Studio Code, XAMPP

Operating Systems: Windows, Kali Linux

PROJECTS

FlexiRide — Ride-Sharing Platform

Personal Project

- Built a full-stack ride-sharing web application enabling users to post, search, and book shared rides in real time.
- Designed an intuitive, responsive UI to simplify the ride-posting and booking workflow for end users.
- Implemented backend logic for ride matching and booking management, improving reliability of the ride-management flow.

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap, XAMPP, Git, GitHub

Live Demo: flexiride.up.railway.app

CivicConnect — Crowdsourced Civic Issue Reporting System

Hackathon Project

- Built a web-based platform enabling citizens to report civic issues (potholes, garbage, streetlight failures) via an interactive map.
- Implemented location-based duplicate detection using the Haversine distance formula to prevent redundant issue reports.
- Added multilingual support (English, Telugu, Hindi, Kannada) to improve accessibility for a wider user base.
- Designed an intuitive interface for issue reporting, tracking, and status updates with map-based visualization.

Tech Stack: HTML5, CSS3, JavaScript, Leaflet.js, OpenStreetMap, PHP, MySQL, SQL, Git, GitHub

Live Demo: civicconnect.up.railway.app

CERTIFICATIONS

GenAI Powered Data Analytics Job Simulation

July 2026

Tata (via Forage) — Completed practical tasks in exploratory data analysis and risk profiling, predicting delinquency with AI, business reporting and data storytelling, and implementing an AI-driven collections strategy.

ADDITIONAL INFORMATION

Actively expanding skills in AI/ML, algorithms, and modern software development practices. Open to internships and entry-level opportunities in Software Engineering, AI/ML, or IT.
